Project: Waste, Junk, Building Materials and Debris - Remove and Haul

"It took several calls to finally get him out to our house. Several times Thomas Gray said he would call back, he never did. As for the cleaning the debris, he didn't clean it all up. He left a pile of debris which included dirt and small wood pieces. It took my husband and I 6 garbage bags to clean it up because it was too heavy to put it all in one bag. They did a good job of getting all of the deck but not the small stuff. Very disappointed...."

"He did a good job, but he failed to take into account some of the challenges in taking down such a large tree. As a result, his initial quote was too low and had to be revised upward. He also failed to respond to a couple of follow-up calls for rescheduling."

"Called immediately. Good response and rates. Polite. cut some weed trees away from wires and some large trees. Didn't cut the weed trees down to base or roots, that was a disappointment, but were friendly and helpful."
